

colour & glass reference guide

Effective from June 2009

Door-Stop composite doors

Door-Stop composite doors are top quality, fitter-friendly, realistically priced products delivered in great turnaround times – with the best marketing support.

That's why we have twenty different door styles in the best quality in seven different colours with a stunning selection of glass.

Many options are available for delivery in just three days, and only seven days for the extended range.

As well as this guide there's a seventy page glossy consumer brochure showing real doors installed in real homes.

You can order online at www.door-stop.co.uk or if you'd prefer to place your order by fax you can download the order form.

Easy to use...

As there are over fifty-seven billion options we've designed this reference guide to make it easy to order Door-Stop doors.

First choose the door style you want. The pictures of the doors are shown on the side tabs. Flip over the guide to the page and you'll find all options for the door on that page.

Door colours, glass designs and choices of backing glass are shown so you know exactly what's available for each door. And how long it will take to have the door ready for delivery.

If you'd like bigger swatches of the door colours turn to the six panel door page. It's the tab on the bottom left. If you'd like bigger swatches of the glass patterns, turn to the diamond door. That's the tab on the bottom right.

And finally on the four inside back pages you'll find composite side panels and all the hardware options.

The doors have easy to remember names, like a 2 panel 1 arch, or the 2 panel 2 square. Otherwise you can use the nominated letter that relates to the order form.

Once all the choices have been made use the door order form and fax it to us on 01623 553892 or order online at www.door-stop.co.uk
