

Synseal launches a range of sills designed for new build and conservatory applications.

The sills feature an innovative window board receptor – creating a level platform for the window board and saving time for the installer.

The new build sill will fit most 60mm and 70mm window systems.

Synseal Window Boards are designed to interlock neatly into the New Build Sill.

Manufactured from durable cellular PVC for a low maintenance finish, the window boards are available in either 175mm or 225mm deep, 5000mm lengths.

Product codes: Window boards
Colour: White

3WB-175	175mm	5000mm (2 Lengths)

Sills and window boards *the finishing touch*

New build sills and interlocking window boards

Now available – the Synsil range of high quality window grade silicones and adhesives from Synseal. Synsil products offer superb performance you can depend on at extremely competitive prices.

Contractors LMN Silicone for PVCu

A fast curing low modulus neutral silicone especially formulated for use on most PVCu.

Product code: LMN300 – WHITE
LMN300B – BROWN

Contractors LMN general Silicone

A one component neutral cure silicone which can be used for sealing most building, construction and glazing joints.

Product code: LMN300CLR – CLEAR

Contractors Caulk Acrylic

A water based one component flexible caulk acrylic that is easy to apply, dries quickly and can be painted over after only 1 hour.

Product code: CAULK300

Superglue

Ethyl cyanoacrylate based adhesive developed for bonding rubbers and plastics such as PVCu. This one component, solvent free adhesive has rapid bonding at room temperature and is economical to use.

Product code: SGLU50 – 50GM

Superglue Activator

Low viscosity solvent based cyanoacrylate adhesive activator containing active components dissolved in a hydrocarbon solvent. Activator is low odour and fast acting.

Product code: SGLUACT200 – 200ML

Traditional look *simple solution*

Decorative mock sash horns

Decorative Mock Sash Horns from Synseal recreate the look of a traditional sliding sash in a modern casement window.

Available for Synerjy, Shield and Legend suites, Synseal Mock Sash Horns are supplied in convenient kits with 2 metre lengths of pre-routed sash profile to minimise waste and reduce fabrication time.
